Homeowners Association

Modifying the Covenants

Members of the Association have the power to modify or amend covenants through communication with the Board of Directors.

Once a question or request for a change is submitted to the Board, it becomes a part of the agenda at the annual meeting and can be brought to a vote.

A minimum of sixty-six and two thirds percent (66 2/3%) of the membership, recognized as a quorum, must be established at the annual meeting to effect change through a majority vote.
